

"YCC91 / Bellkara"

Her unique concept originates from the desire for unsurpassed freedom, love for the sea, and passion for sailing. An experienced sailor, the owner, had extraordinary yet precise requirements. A real challenge to all parties involved, project management was entrusted to Norbert Sedlacek, a world-renowned sailor whose experience from single-handed circumvention of the globe was invaluable to this project.

Performance oriented hull lines, powered by carbon rig and advanced sails in combination with a lifting keel and latest deck equipment, are the secret to Bellkara's excellent naval characteristics. She is fast, agile, and responsive, yet a luxurious cruiser delivering the highest level of comfort to the owner and his guests.

Her wide beam delivers outstanding interior volume divided into two zones, giving crew and guests their private space. The aft part of the yacht accommodates a spacious garage for an almost 5-meter long luxurious tender. A powerful 355 hp engine, large fuel tanks, strong hull, and unlimited sailing range make Bellkara ready for long-range cruising on open seas in any weather.
