

BELLKARA

LUXURY & PERFORMANCE

BELLKARA

The stunning silhouette of this exciting aluminum sloop stands out from other vessels, offering simple yet noble lines, perfect proportions, and most advanced engineering. Her unique concept originates from a desire for unsurpassed freedom, love of the sea, and passion for sailing. An experienced sailor, the owner, had extraordinary yet precise requirements driven by the goal to maximize comfort without compromising on sailing performance. A real challenge to all parties involved, project management was entrusted to Norbert Sedlacek, a world-renowned sailor whose experience from single-handed circumnavigation was essential to this project.

DECK LAYOUT

INTERIOR LAYOUT

Performance-oriented hull lines powered by carbon rig, well-balanced sails, and a lifting keel are the secret to the outstanding nautical characteristics of Bellkara. The modern and dynamic silhouette of the yacht is additionally underlined by her exciting silvery livery, distinctive deckhouse glazing, four-spreader mast towering over the deck, red exterior upholstery, and red paint accents. She is fast, agile, and responsive, yet a luxurious cruiser delivering highest comfort to the owner and his guests. A powerful 355 hp engine, large fuel tanks, a strong hull, and unlimited sailing range ensure Bellkara is ready for long-range cruising on open seas in most challenging situations.

A hydraulic lifting keel allows for anchoring in charming and shallow bays, as well as outstanding sailing performance in most demanding conditions. Sails are handled using hydraulic winches, stay furlers, and an in-boom furler of the mainsail. The aft section of the yacht accommodates a spacious garage for a luxurious 5-meter jet tender that can be easily launched using the main boom once the full-size garage hatch is open. A wide and comfortable gangway integrated into the stern provides a stable connection to the shore.

Bellkara's wide beam delivers excellent interior space, divided into two zones. The aft section contains crew accommodations with two twin bed crew cabins, a crew mess, a laundry area, and a navigation desk. From the crew area, there is a separate crew companionway and direct access to the engine room. Further forward, the functional galley forms a link between crew area and the living area for the owner and his guests. The full-beam main salon is comprised of a generous dining area and a separate area for entertainment and relaxation. The center of the yacht provides remarkable headroom and convenient access to the cockpit. Four guests can sleep in two guest cabins, one with twin beds and the other with a double bed. Each guest cabin has its en suite bathroom. The exquisite owner's cabin accommodates a huge bedroom with a walk-in wardrobe, a beautiful bathroom, and a separate head. It is located in the bow, separate from the salon by an adjoining corridor, offering exceptional comfort and silence to the owner.

The deck layout is another example of Bellkara's ideal combination of experience, functionality, comfort, and safety. It includes two helm stations, an ergonomic and safe cockpit, and fantastic flush aft and front deck. All possible deck equipment, including the hydraulic anchor system, is hidden flush underneath the deck. The spacious deck cockpit with two symmetrical sofas and two large tables for twelve creates a significant outdoor relaxation area where guests can enjoy the fresh air and panoramic views. The port table can be lowered to form a comfortable sunbed, while the starboard table has a functional built-in beverage cooler. When the bimini top is in place, the cockpit is transformed into a cozy deck salon protected from sun, wind, and rain.

Bellkara was a complete team effort born out of dreams, passion, and experience. The result is a fantastic sailing yacht offering an uncompromising balance of luxury and performance.
