

## Conrad C133S

---

Whether the "S" stands for "Super", "Sleek", "Sexy" or just plain and simple "Straight Bow", trying to foresee the ever changing needs and demands of clients, Conrad Shipyard presents the sister ship to the successful C133, the C133S. Staying true to the modern, yet timelessly stylish design by world-renowned design studio Raymond Langton, the C133S' straight bow is not only a refreshing touch compared to the classic bow in the C133, but provides for new layout options as compared to its' sister ship. The additional volume due to the shape of the hull can be used for additional crew space or to generate more space for guests. Conrad Shipyard is pleased to announce that this prestigious creation by Britain's Raymond Langton, married to the proven naval architecture and engineering by Diana Yacht Design is ready to go into production and is now offered as a semi-custom model.
